Relevant Experience

No professional experience in this field

Projects

Game Store
Web application built using ASP.NET Core and Razor Pages. It uses Entity Framework with MS SQL Server for the database. This project is a game store that allows accounts to be registered, games to be "purchased" and more.

Personal Website
Web application built using React. This website is used to display my skills and to present a portfolio of projects. It was also used to teach myself React and to improve on responsive design.

Education

Conestoga College
2017 - 2020
Three-year advanced diploma in the Computer Programmer/Analyst program
